

How to Make "No-sew" Tie Blankets

Betsy's Blankets

Betsy's Blankets collects new blankets and bedding to provide warmth and the feeling of comfort and security to those who need it most. We provide blankets and bedding to children, adults, and shelter animals who do not have access to the essential items that allow for a good night's sleep.

Making "no-sew" tie blankets is a fun and easy way to make a warm fleece blanket that can be donated to Betsy's Blankets. **Thank you for helping us spread warmth to those who need it most!**

What You Need

Fleece fabric - 1.5 to 2 yards of fabric in 2 different colors or patterns

Fabric-cutting scissors

Ruler

- **Lay out your fabric.** Line up your 2 pieces of fabric and lay one on top of the other.
- **Cut out a 5" x 5" square of fabric in each corner.** Cut both the top and the bottom pieces of fabric together.
- **Cut 1 inch wide and 5 inches long strips along each side.** The strips will line up with the top of each square you cut in each corner. You will again cut both the top and the bottom pieces of fabric together.
- **Tie the top strip and the bottom strip together** - double knot them to make sure they stay tied.
- **Continue tying all of the strips together until you're done!**
